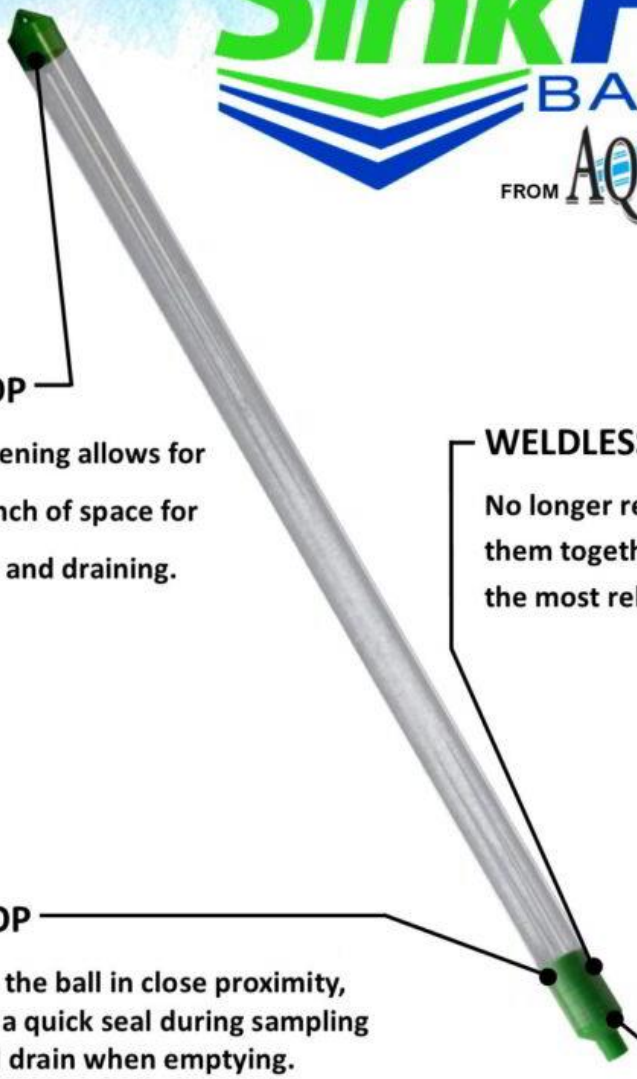
SinkFast® BAILERS

FROM AQUA BAILERS®



OPEN-TOP

A larger opening allows for nearly an inch of space for easy tie-on and draining.

WELDLESS ASSEMBLY

No longer relying on welds to hold them together, our bailers are now the most reliable on the market.

BALL-STOP

By keeping the ball in close proximity, We ensure a quick seal during sampling and a rapid drain when emptying.

ANTI-VORTEX DESIGN

Engineered to allow the check valve to work quickly, keeping your sample where it belongs.
